Dear Chris,

Well things are going along quite well for both Randy and Myself. Randy was up for 2 weeks and we ran around and saw all kinds of people as Randy is designing alot of new equipment.

I am giving a presentation on the plant work in the near future and I would like for you to send me the original slides that Randy and I sent you of our plant work. These slides will be an important part of the presentation. Also I would be interested in any new info. you might have relating to plant work and Bakster effect.

I am still waiting for your book and have a standing order for it. I understand that it will be out this month. Well thats it for now good luck and take care.

Sincerely,

Bob Swanson
